Press Information

Vienna International Airport:

Excellent traffic development during first half-year

New 6-month record with more than 6 million passengers

During the first half of 2004 Vienna International Airport handled a total of 6,775,621 passengers, which represents an increase of 18.9% or 1 million passengers over the prior year. This development was supported by low-cost carriers, which handled a total of 690,000 passengers, as well as a plus of 26.9% in travel to Eastern Europe and growth in the long-haul segment.

The number of transfer passengers rose 23.9%. Maximum take-off weight increased 17.3%, flight movements 14.3%, and cargo volume 19.1%.

June brings two-digit growth in all traffic segments

The number of passengers rose 14.5% to 1,368,773 in June, and transfers recorded a plus of 27.0%.

Flight movements increased 17.0% and maximum take-off weight grew 21.3%. Cargo reported 34.0% higher volume for the month.

Long-haul traffic showed strong growth, both in the scheduled and charter segments. The number of passengers travelling to North America rose 25.7%. Particularly strong growth was also recorded in traffic to the Far East with a plus of 70.3%, as well as the Near and Middle East with 46.8%. An increase of 24.1% in travel to Eastern Europe during June underscores the growing importance of Vienna International Airport as an East-West hub.

	June 2004	Change in %	January to June 2004	Change in %
Passengers:	1,368,773	+14.5	6,775,621	+18.9
